

Indian Map Data

DKG Info Systems from Hong Kong are Agents for ML Infomap, an independent supplier of digital maps of India and an ISO 9001-2008 certified company. It is a member of ESRI Partner Network and the exclusive partner of ESRI in India.

ML Infomap has the largest repository of POIs and seamless, nationwide base maps and city street maps available of India. Map features are sourced and digitized from satellite images. Data sets are updated and enriched from field visits and secondary sources. Map data are offered seamlessly for the nation, individual states or a cluster of states. Complete documentation is provided in metadata and data description files. Data can be used to support terrain modelling, retail segmentation, spatial analysis, navigation and Location Based Services.

INDIAN MAP DATA SETS

This list isn't comprehensive so please contact us if you can't find what you're looking for.

- 725 cities- Navigable detailed streets and landmarks
- 135 cities wards and localities boundaries
- Points Of Interest – 2.14 million GPS field collected Points Of Interest in 150 categories
- National 6 digit Postal Codes
- National Navigable major roads
- National Forests: including National Parks
- National Water Bodies – rivers, streams, lakes and ponds
- National Map of Seasonal Ground Water Depth
- National Land Use/land Cover
- National Map of Important mines
- National Map of Hospitals
- National Soils Distribution and Depth
- National Crop Map; major crops
- National Map of Climatic Regions
- National Map of Agro-climatic regions
- National Railway lines & railway stations
- International country boundary
- National State Boundaries
- National District Boundaries

National Historical Map of District Boundary Changes
National Sub-District Boundaries
National Block Boundaries
National Village Boundaries: All 600,000+ village boundaries
National Village Points for settlement over 5000 population
National Parliamentary constituencies
National Assembly constituencies
National Rural Markets: `Haat's
National Map of Religion
National Map of Languages
National Elevation Maps: DEM, contours, shaded ranges
National Map of Major Natural Disasters
National Map of Climatic Regions
National Map of Agro-Climatic regions

CITIES MAP DATA SETS

Various datasets are available for each city as detailed below

CITIES BASE MAP

Data is available for more than **600+ cities, all updated in 2009 - 2011**. These are seamless vector layers, sourced and digitized from VHR satellite images, reconciled with secondary sources. Data sets are updated from regular field visits. Complete documentation is provided in metadata and data description files. Data can be provided seamlessly for several selected cities or individual cities. The layers include: road network (expressways, highways and named major roads), minor roads, railway lines, lakes, streams and rivers, parks and gardens, landmarks as points

POINTS OF INTEREST IN CITIES

We have the largest repository of POIs for cities of India, refreshed quarterly. Particularly suitable for LBS and retail analysis, this data set complements the landmarks included in the Base Maps.

POSTAL CODE BOUNDARIES

6 digit city postal code boundaries

CITY INCOME MAPS

Income data by category estimated for city wards

NAVIGABLE ROAD NETWORK

Seamless and topologically suitable for routing and navigation.

CITY WARD BOUNDARIES

City ward boundaries linked to Census demographics

INTRA-CITY LOCALITY BOUNDARIES

City area/locality boundaries

MUNICIPAL BOUNDARIES

City Municipal Corporation/Municipality etc boundaries

CITY RETAIL

Malls and major retail chain outlets

NATIONAL MAP DATA SETS

STATE AND NATIONAL BASE MAP

These are seamless vector layers, sourced and digitized from satellite images. Data sets are updated annually from field visits. Complete documentation is provided in metadata and data description files. Data can be provided seamlessly for the nation, individual states or a cluster of states. The layers include: road network (expressways and highways), railway lines, important water bodies, national parks and sanctuaries, state boundaries, district boundaries, sub-district boundaries, position of cities/towns, position of large villages.

INTERNATIONAL BOUNDARY

Includes coastal boundary and international land boundary of India

NATIONAL TERRAIN MAPS

100mx100m pixels raster elevation data in geotiff

100m interval contour vectors (smaller interval can be provided for plains)

DEM: Isometric colour height maps

NATIONAL POSTAL CODE

Postal code areas boundaries for India Postal code points for India

PARLIAMENTARY AND ASSEMBLY CONSTITUENCEIES

Recently delimited parliamentary constituency boundaries available

Optionally, Past elections data and demographics included

Optionally, software for analysis and projections included

INCOME MAPS

Income by category, estimated for all districts of the nation

NAVIGABLE ROAD NETWORK

Seamless and topologically suitable for routing and navigation across the nation

NATIONAL VILLAGE BOUNDARIES

All villages boundaries, optionally linked to Census demographics.

NATIONAL VILLAGE POINTS

All villages points available, optionally linked to Census demographics.

MARKET VILLAGES

`Haats across the nation, optionally linked to Census demographics

NATIONAL SOIL BOUNDARIES

Soil polygons with descriptive data

NATIONAL WATER MAP

Major river basins and watersheds boundaries and drainage network

NATIONAL LANDCOVER MAP

Broad categories like arable, irrigated, forest, urban etc included
